

is a leading rare disease patient advocacy organization with the mission to eliminate the challenges of rare disease. Through their mission, they build awareness, educate the global community, and provide critical connections and resources that equip advocates to become activists for their disease. Global Genes promotes the needs of the rare disease community as a whole under a unifying symbol of hope – the Blue Denim Genes Ribbon™.

RARE DISEASES AFFECT  
**1 IN 10**  
AMERICANS

**30** MILLION PEOPLE IN THE UNITED STATES, AND

**350** MILLION PEOPLE GLOBALLY

OVER **7,000**

**50%** OF THE PEOPLE AFFECTED BY RARE DISEASE ARE CHILDREN

IDENTIFIED RARE DISEASES EXIST AND APPROXIMATELY **80%** ARE CAUSED BY GENE MUTATIONS
